# Report on Internal Control Over Financial Reporting

The Association’s principal executives and principal financial officers, or persons performing similar functions, are responsible for establishing and maintaining adequate internal control over financial reporting for the Association’s Consolidated Financial Statements. For purposes of this report, “internal control over financial reporting” is defined as a process designed by, or under the supervision of the Association’s principal executives and principal financial officers, or persons performing similar functions, and effected by its Board of Directors, management and other personnel. This process provides reasonable assurance regarding the reliability of financial reporting information and the preparation of the Consolidated Financial Statements for external purposes in accordance with accounting principles generally accepted in the United States of America.

Internal control over financial reporting includes those policies and procedures that: (1) pertain to the maintenance of records that in reasonable detail accurately and fairly reflect the transactions and dispositions of the assets of the Association, (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial information in accordance with accounting principles generally accepted in the United States of America, and that receipts and expenditures are being made only in accordance with authorizations of management and directors of the Association, and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use or disposition of the Association’s assets that could have a material effect on its Consolidated Financial Statements.

The Association’s management has completed an assessment of the effectiveness of internal control over financial reporting as of September 30, 2021. In making the assessment, management used the framework in *Internal Control — Integrated Framework (2013)*, promulgated by the Committee of Sponsoring Organizations of the Treadway Commission, commonly referred to as the “COSO” criteria.

Based on the assessment performed, the Association’s management concluded that as of September 30, 2021, the internal control over financial reporting was effective based upon the COSO criteria. Additionally, based on this assessment, the Association’s management determined that there were no material weaknesses in the internal control over financial reporting as of September 30, 2021.

# Management's Discussion and Analysis of Financial Condition and Results of Operations

*(dollars in thousands)*

The following commentary reviews the consolidated financial condition and results of operations of Farm Credit of the Virginias, ACA (Association) for the period ended September 30, 2021. These comments should be read in conjunction with the accompanying consolidated financial statements, notes to the consolidated financial statements and the 2020 Annual Report of the Association. The accompanying consolidated financial statements were prepared under the oversight of the Audit Committee of the Board of Directors.

## LOAN PORTFOLIO

The Association provides funds to farmers, rural homeowners and farm-related businesses for financing of short and intermediate-term loans and long-term real estate mortgage loans. The Association's loan portfolio is diversified over a range of agricultural commodities including livestock, timber, poultry and field crops. Farm size varies and many of the borrowers in the region have diversified farming operations. This factor, along with the numerous opportunities for non-farm income in the area, somewhat impacts the level of dependency on a given commodity.

As of September 30, 2021, the gross loan volume of the Association was \$1,991,391 compared to \$1,869,936 at December 31, 2020. Gross loan volume increased by \$121,455 or 6.50 percent when compared to gross loan volume at December 31, 2020. Net loans outstanding at September 30, 2021 were \$1,973,549 as compared to \$1,853,550 at December 31, 2020. The increase in loan volume was mainly due to an increase in real estate mortgage loans made during the first nine months of 2021.

There is an inherent risk in the extension of any type of credit. However, portfolio credit quality continues to be maintained at an acceptable level and credit administration remains satisfactory. As of September 30, 2021, nonaccrual loan volume was \$27,663 compared to \$26,216 at December 31, 2020. This was an increase of \$1,447 as additional loans were transferred to nonaccrual status, which were partially offset by reinstatements to accrual status and repayments during the first nine months of 2021. Nonaccrual loan volume to gross loan volume was 1.39 percent at September 30, 2021.

Other property owned totaled \$605 at September 30, 2021, compared to \$826 at December 31, 2020.

Association management maintains an allowance for loan losses in an amount considered sufficient to absorb possible losses in the loan portfolio. Factors considered in determining the allowance for loan losses were generally based on historical charge-off experience adjusted for relevant external factors. The allowance for loan losses at September 30, 2021 was \$17,842. The allowance for loan losses to gross loan volume was 0.90 percent.

## RESULTS OF OPERATIONS

### *For the three months ended September 30, 2021*

Net income for the three months ended September 30, 2021, totaled \$6,715 as compared to \$8,227 for the same period in 2020. This was a decrease of \$1,512 or 18.38 percent. The decrease in net income was primarily attributable higher noninterest expenses which have been evaluated below.

Net interest income decreased \$258 or 2.10 percent for the three months ended September 30, 2021, as compared to the same period in 2020. This decrease in net interest income was attributable to the decrease in interest income of \$184 as compared to the same period of 2020, and an increase in interest expense of \$74. The fluctuations in interest income and interest expense as compared to the same period of 2020 are primarily attributable to lower interest rates and compressed margins for the three months ended September 30, 2021, partially offset by higher loan volume.

Noninterest income for the three months ended September 30, 2021 totaled \$3,516 compared to \$3,316 for the same period last year, an increase of \$200 or 6.03 percent. The increase is attributable to higher patronage refunds received from other Farm Credit institutions due to the increased loan volume recorded.

Noninterest expenses for the three months ended September 30, 2021 totaled \$8,334 compared to \$7,218 for the same period in 2020. The increase in noninterest expenses was primarily attributed to increases in salaries and employee benefits, and insurance fund premiums.

### For the nine months ended September 30, 2021

Net income for the nine months ended September 30, 2021 totaled \$21,429 as compared to \$24,289 for the same period in 2020. This was a decrease of \$2,860 or 11.77 percent.

Net interest income for the nine months decreased \$816 or 2.16 percent compared to the same period in 2020. The decrease in net interest income was primarily due to lower interest rates and compressed margins as compared to September 30, 2020.

Provision for loan losses for the nine months ended September 30, 2021 totaled \$1,500, an increase of \$275 from the same period of the prior year.

Noninterest income for the nine months ended September 30, 2021 totaled \$10,749 as compared to \$9,776 for the same period of 2020. This was an increase of \$973 and was primarily attributable to higher patronage refunds received from other Farm Credit institutions and an increase in loan fees recorded. These increases were partially offset by a decrease in Insurance Fund refunds as comparable to the same period of 2020.

Noninterest expense for the nine months ended September 30, 2021 totaled \$24,745. This was an increase of \$2,699 or 12.24 percent compared to the same period in 2020. The increase in noninterest expenses was mainly due to increases in salaries and employee benefit costs and insurance fund premiums.

### FUNDING SOURCES

The principal source of funds for the Association is the borrowing relationship established with the Bank through a General Financing Agreement. The General Financing Agreement utilizes the Association's credit and fiscal performance as criteria for establishing a line of credit on which the Association may draw funds. The Bank advances the funds to the Association in the form of notes payable. The notes payable are segmented into variable rate and fixed rate

sections. The variable rate note is utilized by the Association to fund variable rate loan advances and operating funds requirements. The fixed rate note is used specifically to fund fixed rate loan advances made by the Association. The total notes payable to the Bank at September 30, 2021 was \$1,536,296 as compared to \$1,418,871 at December 31, 2020. The increase of \$117,425 was primarily attributable to the increase in loan volume during the first nine months of this year.

### CAPITAL RESOURCES

Total members' equity at September 30, 2021 totaled \$472,544, an increase of \$21,854, as compared to \$450,690 at December 31, 2020. The increase in members' equity was primarily attributed to earnings during the first nine months of the year.

Farm Credit Administration (FCA) sets minimum regulatory capital requirements for System Banks and associations. Capital adequacy is evaluated using a number of regulatory ratios. Effective January 1, 2017, the regulatory capital requirements for System Banks and associations were modified. The new regulations ensure that the System's capital requirements are comparable to the Basel III framework and the standardized approach that the federal banking regulatory agencies have adopted. New regulations replaced existing core surplus and total surplus ratios with common equity tier 1 (CET1), tier 1 capital, and total capital risk-based capital ratios. The new regulations also replaced the existing net collateral ratio with a tier 1 leverage ratio and an unallocated retained earnings equivalents (UREE) leverage ratio. The current permanent capital ratio (PCR) remains in effect.

If the capital ratios fall below the minimum regulatory requirements, including the buffer amounts, capital distributions (equity redemptions, dividends, and patronage) and discretionary senior executive bonuses are restricted or prohibited without prior FCA approval.

The following sets forth the regulatory capital ratios, which were effective January 1, 2017:

Ratio	Minimum Requirement	Capital Conservation Buffer*	Minimum Requirement with Capital Conservation Buffer	Capital Ratios as of September 30, 2021
Risk-adjusted ratios:				
CET1 Capital	4.5%	2.5%	7.0%	21.59%
Tier 1 Capital	6.0%	2.5%	8.5%	21.59%
Total Capital	8.0%	2.5%	10.5%	22.46%
Permanent Capital Ratio	7.0%	0.0%	7.0%	21.78%
Non-risk-adjusted:				
Tier 1 Leverage Ratio	4.0%	1.0%	5.0%	22.35%
UREE Leverage Ratio	1.5%	0.0%	1.5%	22.41%

\* Includes fully phased-in capital conservation buffer which became effective January 1, 2020.

---

## IMPACTS OF THE COVID-19 GLOBAL PANDEMIC

### *COVID-19 Overview*

In response to the COVID-19 pandemic, and without disruption to operations, the Association transitioned large portions of its employees to working remotely March 2020. The priority was, and continues to be, to ensure the health and safety of employees, while continuing to serve the mission of providing support for rural America and agriculture. The Association has largely returned to pre-pandemic working conditions.

The COVID-19 pandemic has disrupted businesses and the global economy since March 2020. Significant progress has been made during 2021 in mitigating the spread of COVID-19 resulting in improving macroeconomic conditions. However, the improvement has been hampered by rising inflation, supply chain disruptions and labor shortages in the United States and globally.

See further discussion of business risks associated with COVID-19 in the Annual Report.

### *COVID-19 Support Programs*

Since the onset of the COVID-19 pandemic, the U.S. government has taken a number of actions to help businesses, individuals, state/local governments, and educational institutions that have been adversely impacted by the economic disruption caused by the pandemic.

Since March 2021, the USDA rolled out the Pandemic Assistance initiative that provides assistance to producers and agricultural entities through various programs, which include, but are not limited to, the following:

- Pandemic Livestock Indemnity Program - provides financial assistance to support producers of eligible swine, chickens, and turkeys depopulated from March 1, 2020 through December 26, 2020. To be eligible, depopulation of poultry or livestock must have been due to insufficient processing access resulting from the COVID-19 pandemic;
- Pandemic Assistance for Timber Harvesters and Haulers Program - provides financial relief to timber harvesting and timber hauling businesses that experienced losses in 2020 due to COVID-19;
- Pandemic Cover Crop Program - for most insurance policies, provided premium support to producers who insured their spring crop and planted a qualifying cover crop during the 2021 crop year; and
- Specialty Crop Block Grant Program - funds innovative projects designed to support the expanding specialty crop food sector and explore new market opportunities for U.S. food and agricultural products.

The previously enacted Coronavirus Aid, Relief, and Economic Security (CARES) Act, which was amended by subsequent legislation, included the Paycheck Protection Program (PPP). The PPP provided support to small businesses to cover payroll and certain other expenses. Loans made under the PPP were fully guaranteed by the Small Business Administration (SBA), whose guarantee is backed by the full faith and credit of the United States.

For a detailed discussion of programs enacted in 2020, see pages 8 and 9 of the 2020 Annual Report.

## REGULATORY MATTERS

On September 9, 2021, the FCA adopted a final rule that amended certain sections of the FCA's regulations to provide technical corrections, amendments, and clarification to certain provisions in the FCA's tier 1/tier 2 capital framework for the Farm Credit System. The rule incorporates guidance previously provided by the FCA related to its tier 1/tier 2 capital framework as well as ensures that the FCA's capital requirements continue to be comparable to the standardized approach that the other federal banking regulatory agencies have adopted. The final rule will become effective on January 1, 2022, or 30 days after publication in the Federal Register during which either house of Congress is in session, whichever is later.

On August 26, 2021, the FCA issued a proposed rule to revise its regulatory capital requirements to define and establish risk-weightings for High Volatility Commercial Real Estate (HVCRE) by assigning a 150 percent risk-weighting to such exposures, instead of the current 100 percent. The proposed rule would ensure that the FCA's rule remains comparable with the capital rule of other federal banking regulatory agencies and recognizes the increased risk posed by HVCRE exposures. The public comment period is open until January 24, 2022.

On June 30, 2021, the FCA issued an advance notice of proposed rulemaking (ANPRM) that seeks public comments on whether to amend or restructure the System bank liquidity regulations. The purpose of this advance notice is to evaluate the applicability of the Basel III framework to the Farm Credit System and gather input to ensure that System banks have the liquidity to withstand crises that adversely impact liquidity and threaten their viability. The public comment period is open until November 27, 2021.

On September 23, 2019, the FCA issued a proposed rule that would ensure the System's capital requirements, including certain regulatory disclosures, reflect the current expected credit losses methodology, which revises the accounting for credit losses under U.S. generally accepted accounting principles. The proposed rule identifies which credit loss allowances under the Current Expected Credit Losses (CECL) methodology in the Financial Accounting Standards Board's "Measurement of Credit Losses on Financial Instruments" are

eligible for inclusion in a System institution's regulatory capital. Credit loss allowances related to loans, lessor's net investments in leases, and held-to-maturity debt securities would be included in a System institution's Tier 2 capital up to 1.25 percent of the System institution's total risk weighted assets. Credit loss allowances for available-for-sale debt securities and purchased credit impaired assets would not be eligible for inclusion in a System institution's Tier 2 capital. In addition, the proposed regulation does not include a transition phase-in period for the CECL day 1 cumulative effect adjustment to retained earnings on a System institution's regulatory capital ratios. The public comment period ended on November 22, 2019.

### ***Future of LIBOR***

In 2017, the United Kingdom's Financial Conduct Authority (UK FCA), which regulates LIBOR, announced its intention to stop persuading or compelling the group of major banks that sustains LIBOR to submit rate quotations after 2021.

On March 5, 2021, ICE Benchmark Administration (IBA) (the entity that is responsible for calculating LIBOR) announced its intention to cease the publication of the one-week and two-month US dollar LIBOR settings immediately following the LIBOR publication on December 31, 2021, and the remaining US dollar LIBOR settings immediately following the LIBOR publication on June 30, 2023. On the same day, the UK FCA announced that the IBA had notified the UK FCA of its intent, among other things, to cease providing certain US dollar LIBOR settings as of June 30, 2023. In its announcement, the UK FCA confirmed that all 35 LIBOR tenors (including with respect to US dollar LIBOR) will be discontinued or declared nonrepresentative as of either: (a) immediately after December 31, 2021 or (b) immediately after June 30, 2023.

The Association has exposure to LIBOR arising from loans made to customers, Systemwide Debt Securities issued by the Funding Corporation on the Bank's behalf, and preferred stock issued by the Bank. Alternative reference rates that replace LIBOR may not yield the same or similar economic results over the lives of the financial instruments, which could adversely affect the value of, and return on, instruments held.

The FCA has issued guidelines with similar guidance as the U.S. prudential regulators but applicable for System institutions to follow as they prepare for the expected phase-out of LIBOR. The guidelines direct each System institution to develop a LIBOR transition plan designed to provide an orderly roadmap of actions that will reduce LIBOR exposure, stop the inflow of new LIBOR volume, and adjust operating processes to implement alternative reference rates.

The Association has implemented LIBOR transition plans and continues to analyze potential risks associated with the LIBOR transition, including, but not limited to, financial, market, accounting, operational, legal, tax, reputational, and compliance risks.

On July 26, 2021, the Alternative Reference Rates Committee (ARRC) announced it will recommend the CME Group's forward-looking SOFR term rates. The ARRC's formal recommendation of SOFR term rates is a major milestone and is expected to increase the volume of transactions quoted in SOFR, supporting the implementation of the transition away from LIBOR.

On October 20, 2021, the U.S. prudential regulators issued a joint statement emphasizing the expectation that supervised institutions with LIBOR exposure continue to progress toward an orderly transition away from LIBOR, reiterating that supervised institutions should, with limited exceptions, cease entering into new contracts that use US dollar LIBOR as a reference rate as soon as practicable, but no later than December 31, 2021. They further stated that entering into new contracts, including derivatives, after that date would create safety and soundness risks. The joint statement clarified that entering into such new contracts would include an agreement that (1) creates additional LIBOR disclosure or (2) extends the term of an existing LIBOR contract, but that a draw on an existing agreement that is legally enforceable, e.g., a committed credit facility, would not be a new contract. The joint statement also provided considerations when assessing the appropriateness of alternative reference rates used in lieu of LIBOR and the regulator expectation that new or updated LIBOR contracts include strong and clearly defined fallback rates for when the initial reference rate is discontinued.

## RECENTLY ISSUED ACCOUNTING PRONOUNCEMENTS

Please refer to Note 1, *Organization, Significant Accounting Policies, and Recently Issued Accounting Pronouncements*, in the Notes to the Financial Statements, and the 2020 Annual Report to Shareholders for recently issued accounting pronouncements. Additional information is provided in the following table.

The following ASU was issued by the Financial Accounting Standards Board (FASB):

Summary of Guidance	Adoption and Potential Financial Statement Impact
<b>ASU 2016-13 – Financial Instruments – Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments</b>	
<ul style="list-style-type: none"> <li>• Replaces multiple existing impairment standards by establishing a single framework for financial assets to reflect management’s estimate of current expected credit losses (CECL) over the entire remaining life of the financial assets.</li> <li>• Changes the present incurred loss impairment guidance for loans to an expected loss model.</li> <li>• Modifies the other-than-temporary impairment model for debt securities to require an allowance for credit impairment instead of a direct write-down, which allows for reversal of credit impairments in future periods based on improvements in credit quality.</li> <li>• Eliminates existing guidance for purchased credit impaired (PCI) loans, and requires recognition of an allowance for expected credit losses on these financial assets.</li> <li>• Requires a cumulative-effect adjustment to retained earnings as of the beginning of the reporting period of adoption.</li> <li>• Effective for fiscal years beginning after December 15, 2022, and interim periods within those fiscal years. Early application is permitted.</li> </ul>	<ul style="list-style-type: none"> <li>• Implementation efforts began with establishing a cross-discipline governance structure utilizing common guidance developed across the Farm Credit System. The implementation includes identification of key interpretive issues, scoping of financial instruments, and assessing existing credit loss forecasting models and processes against the new guidance.</li> <li>• The new guidance is expected to result in a change in allowance for credit losses due to several factors, including:               <ol style="list-style-type: none"> <li>1. The allowance related to loans and commitments will most likely change because it will then cover credit losses over the full remaining expected life of the portfolio, and will consider expected future changes in macroeconomic conditions,</li> <li>2. An allowance will be established for estimated credit losses on any debt securities,</li> <li>3. The nonaccretable difference on any PCI loans will be recognized as an allowance, offset by an increase in the carrying value of the related loans.</li> </ol> </li> <li>• The extent of allowance change is under evaluation, but will depend upon the nature and characteristics of the financial instrument portfolios, and the macroeconomic conditions and forecasts, at the adoption date.</li> <li>• The guidance is expected to be adopted January 1, 2023.</li> </ul>

**NOTE:** Shareholder investment in the Association is materially affected by the financial condition and results of operations of AgFirst Farm Credit Bank. Copies of AgFirst’s annual and quarterly reports are available upon request free of charge by calling 1-800-845-1745, ext. 2764, or writing Matthew Miller, AgFirst Farm Credit Bank, P.O. Box 1499, Columbia, SC 29202. Information concerning AgFirst Farm Credit Bank can also be obtained at their website, [www.agfirst.com](http://www.agfirst.com). Copies of the Association’s annual and quarterly reports are also available upon request free of charge by calling 540-886-3435, ext. 5040, or writing Justin Weekley, Farm Credit of the Virginias, ACA, P.O. Box 899, Staunton, VA 24402, or accessing the website, [www.farmcreditofvirginias.com](http://www.farmcreditofvirginias.com). The Association prepares a quarterly report within 40 days after the end of each fiscal quarter, except no report need be prepared for the fiscal quarter that coincides with the end of the fiscal year of the institution.

### Note 1 — Organization, Significant Accounting Policies, and Recently Issued Accounting Pronouncements

#### Organization

The accompanying financial statements include the accounts of Farm Credit of the Virginias, ACA and its Production Credit Association (PCA) and Federal Land Credit Association (FLCA) subsidiaries (collectively, the Association). A description of the organization and operations, the significant accounting policies followed, and the financial condition and results of operations for the Association as of and for the year ended December 31, 2020, are contained in the 2020 Annual Report to Shareholders. These unaudited interim consolidated financial statements should be read in conjunction with the latest Annual Report to Shareholders.

#### Basis of Presentation

In the opinion of management, the accompanying consolidated financial statements contain all adjustments necessary for a fair statement of results for the periods presented. These adjustments are of a normal recurring nature, unless otherwise disclosed.

Certain amounts in the prior period's consolidated financial statements may have been reclassified to conform to the current period presentation. Such reclassifications had no effect on the prior period net income or total capital as previously reported.

The results of any interim period are not necessarily indicative of those to be expected for a full year.

#### Significant Accounting Policies

The Association's accounting and reporting policies conform with U.S. generally accepted accounting principles (GAAP) and practices in the financial services industry. To prepare the financial statements in conformity with GAAP, management must make estimates based on assumptions about future economic and market conditions (for example, unemployment, market liquidity, real estate prices, etc.) that affect the reported amounts of assets and liabilities at the date of the financial statements, income and expenses during the reporting period, and the related disclosures. Although these estimates contemplate current conditions and expectations of change in the future, it is reasonably possible that actual conditions may be different than anticipated, which could materially affect results of operations and financial condition.

Management has made significant estimates in several areas, including loans and allowance for loan losses (Note 2, *Loans and Allowance for Loan Losses*), investment securities and other-than-temporary impairment (Note 3, *Investments*), and

financial instruments (Note 6, *Fair Value Measurement*). Actual results could differ from those estimates.

For further details of significant accounting policies, see Note 2, *Summary of Significant Accounting Policies*, from the latest Annual Report.

#### Accounting Standards Updates (ASUs) Issued During the Period and Applicable to the Association

There were no applicable Updates issued by the Financial Accounting Standards Board (FASB) during the period.

#### ASUs Pending Effective Date

For a detailed description of the ASUs below, see the latest Annual Report.

Potential effects of ASUs issued in previous periods:

- In June 2016, the FASB issued ASU 2016-13 Financial Instruments—Credit Losses (Topic 326): Measurement of Credit Losses on Financial Instruments. This Update, and subsequent clarifying guidance issued, is intended to improve financial reporting by requiring timelier recording of credit losses on financial instruments. It requires an organization to measure all expected credit losses for financial assets held at the reporting date through the life of the financial instrument. Financial institutions and other organizations will use forward-looking information to estimate their credit losses. Additionally, the ASU amends the accounting for credit losses on available-for-sale debt securities and purchased financial assets with credit deterioration. For public companies that are not SEC filers, it will take effect for fiscal years beginning after December 15, 2022, and interim periods within those fiscal years. Evaluation of any possible effects the guidance may have on the statements of financial condition and results of operations is in progress.

#### Accounting Standards Effective During the Period

There were no changes in the accounting principles applied from the latest Annual Report, other than any discussed below.

No recently adopted accounting guidance issued by the FASB had a significant effect on the current period reporting.

- In October 2020, the FASB issued ASU 2020-10 Codification Improvements. The amendments represent changes to clarify the Codification, correct unintended application of guidance, or make minor improvements to the Codification that are not expected to have a significant

effect on current accounting practice or create a significant administrative cost to most entities. The Update moves or references several disclosure requirements from Section 45 - Other Presentation Matters to Section 50 - Disclosures. It also includes minor changes to other guidance such as Cash Balance Plans, Unusual or Infrequent Items, Transfers and Servicing, Guarantees, Income Taxes, Foreign Currency, Imputation of Interest, Not For Profits and Real Estate Projects. The amendments had no impact on the statements of financial condition and results of operations.

- In January 2020, the FASB issued ASU 2020-01 Investments—Equity Securities (Topic 321), Investments—Equity Method and Joint Ventures (Topic 323), and Derivatives and Hedging (Topic 815): Clarifying the Interactions between Topic 321, Topic 323, and Topic 815. The amendments clarify certain interactions between the guidance on accounting for certain equity securities under Topic 321, the guidance on accounting for investments under the equity method in Topic 323, and the guidance in Topic 815. The Update could change how an entity accounts for an equity security under the measurement alternative or a forward contract or purchased option to purchase securities that, upon settlement of the forward contract or exercise of the purchased option, would be accounted for under the equity method of accounting or the fair value option in accordance with Topic 825, Financial Instruments. The amendments are intended to improve current GAAP by reducing diversity in practice and increasing comparability of the accounting for these interactions. For public business entities, the amendments are effective for fiscal years beginning after December 15, 2020, and interim periods within those fiscal years. Adoption of this guidance had no effect on the statements of financial condition and results of operations.
- In December 2019, the FASB issued ASU 2019-12 Income Taxes (Topic 740): Simplifying the Accounting for Income Taxes. The amendments simplify the accounting for income taxes by removing the following exceptions:
  - Exception to the incremental approach for intraperiod tax allocation when there is a loss from continuing operations and income or a gain from other items (for example, discontinued operations or other comprehensive income),
  - Exception to the requirement to recognize a deferred tax liability for equity method investments when a foreign subsidiary becomes an equity method investment,
  - Exception to the ability not to recognize a deferred tax liability for a foreign subsidiary when a foreign equity method investment becomes a subsidiary, and
  - Exception to the general methodology for calculating income taxes in an interim period when a year-to-date loss exceeds the anticipated loss for the year.

The amendments also simplify the accounting for income taxes by doing the following:

- Requiring that an entity recognize a franchise tax (or similar tax) that is partially based on income as an income-based tax and account for any incremental amount incurred as a non-income-based tax,
- Requiring that an entity evaluate when a step up in the tax basis of goodwill should be considered part of the business combination in which the book goodwill was originally recognized and when it should be considered a separate transaction,
- Specifying that an entity is not required to allocate the consolidated amount of current and deferred tax expense to a legal entity that is not subject to tax in its separate financial statements; however, an entity may elect to do so (on an entity-by-entity basis) for a legal entity that is both not subject to tax and disregarded by the taxing authority,
- Requiring that an entity reflect the effect of an enacted change in tax laws or rates in the annual effective tax rate computation in the interim period that includes the enactment date, and
- Making minor codification improvements for income taxes related to employee stock ownership plans and investments in qualified affordable housing projects accounted for using the equity method.

For public business entities, the amendments in this Update are effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2020. Adoption of this guidance did not have a material impact on the statements of financial condition and results of operations.

## Note 2 — Loans and Allowance for Loan Losses

The Association maintains an allowance for loan losses at a level considered adequate by management to provide for probable and estimable losses inherent in the loan portfolio as of the report date. The allowance for loan losses is increased through provisions for loan losses and loan recoveries and is decreased through loan charge-offs and allowance reversals. A review of individual loans in each respective portfolio is performed periodically to determine the appropriateness of risk ratings and to ensure loss exposure to the Association has been identified. See Note 3, *Loans and Allowance for Loan Losses*, from the latest Annual Report for further discussion.

Credit risk arises from the potential inability of an obligor to meet its repayment obligation. The Association manages credit risk associated with lending activities through an assessment of the credit risk profile of an individual obligor. The Association sets its own underwriting standards and lending policies that provide direction to loan officers and are approved by the board of directors.

A summary of loans outstanding at period end follows:

	September 30, 2021	December 31, 2020
Real estate mortgage	\$ 1,568,691	\$ 1,438,603
Production and intermediate-term	314,706	311,889
Loans to cooperatives	90	-
Processing and marketing	33,619	39,151
Farm-related business	8,809	15,077
Communication	2,662	7,033
Rural residential real estate	62,814	58,183
Total loans	\$ 1,991,391	\$ 1,869,936

A substantial portion of the Association's lending activities is collateralized, and exposure to credit loss associated with lending activities is reduced accordingly.

The Association may purchase or sell participation interests with other parties in order to diversify risk, manage loan volume, and comply with Farm Credit Administration (FCA) regulations. The following tables present the principal balance of participation loans at periods ended:

	September 30, 2021							
	Within AgFirst District		Within Farm Credit System		Outside Farm Credit System		Total	
	Participations Purchased	Participations Sold	Participations Purchased	Participations Sold	Participations Purchased	Participations Sold	Participations Purchased	Participations Sold

\*Includes the loan types: Loans to cooperatives, Processing and marketing, and Farm-related business.

A restructuring of a debt constitutes a troubled debt restructuring (TDR) if the creditor for economic or legal reasons related to the debtor's financial difficulties grants a concession to the debtor that it would not otherwise consider. The following tables present additional information about pre-modification and post-modification outstanding recorded investment and the effects of the modifications that occurred during the periods presented.

Outstanding Recorded Investment	Three Months Ended September 30, 2021				Charge-offs
	Interest Concessions	Principal Concessions	Other Concessions	Total	
<b>Pre-modification:</b>					
Real estate mortgage	\$ 2,458	\$ 29	\$ —	\$ 2,487	
Production and intermediate-term	—	1,088	—	1,088	
Processing and marketing	—	11,200	—	11,200	
Total	\$ 2,458	\$ 12,317	\$ —	\$ 14,775	
<b>Post-modification:</b>					
Real estate mortgage	\$ 2,458	\$ 29	\$ —	\$ 2,487	\$ —
Production and intermediate-term	—	1,101	—	1,101	—
Processing and marketing	—	10,900	—	10,900	—
Total	\$ 2,458	\$ 12,030	\$ —	\$ 14,488	\$ —

Nine Months Ended September 30, 2021					
Outstanding Recorded Investment	Interest	Principal	Other	Total	Charge-offs
	Concessions	Concessions	Concessions		
<b>Pre-modification:</b>					
Real estate mortgage	\$ 2,499	\$ 1,730	\$ –	\$ 4,229	
Production and intermediate-term	–	1,572	–	1,572	
Processing and marketing	–	23,300	3,000	26,300	
Total	\$ 2,499	\$ 26,602	\$ 3,000	\$ 32,101	
<b>Post-modification:</b>					
Real estate mortgage	\$ 2,499	\$ 1,562	\$ –	\$ 4,061	\$ –

Total	\$ 2,499	\$ 26,150	\$ 3,000	\$ 31,649	\$ –

Three Months Ended September 30, 2020					
Outstanding Recorded Investment	Interest	Principal	Other	Total	Charge-offs
	Concessions	Concessions	Concessions		
<b>Pre-modification:</b>					
Real estate mortgage	\$ –	\$ 38	\$ –	\$ 38	
Production and intermediate-term	–	191	–	191	
Total	\$ –	\$ 229	\$ –	\$ 229	
<b>Post-modification:</b>					
Real estate mortgage	\$ –	\$ 38	\$ –	\$ 38	\$ –
Production and intermediate-term	–	192	–	192	–
Total	\$ –	\$ 230	\$ –	\$ 230	\$ –

Nine Months Ended September 30, 2020					
Outstanding Recorded Investment	Interest	Principal	Other	Total	Charge-offs
	Concessions	Concessions	Concessions		
<b>Pre-modification:</b>					
Real estate mortgage	\$ –	\$ 2,982	\$ –	\$ 2,982	
Production and intermediate-term	–	669	–	669	
Processing and marketing	–	11,200	–	11,200	
Farm-related business	–	47	–	47	
Total	\$ –	\$ 14,898	\$ –	\$ 14,898	
<b>Post-modification:</b>					
Real estate mortgage	\$ –	\$ 3,011	\$ –	\$ 3,011	\$ –
Production and intermediate-term	–	668	–	668	–
Processing and marketing	–	11,200	–	11,200	–
Farm-related business	–	47	–	47	–
Total	\$ –	\$ 14,926	\$ –	\$ 14,926	\$ –

Interest concessions may include interest forgiveness and interest deferment. Principal concessions may include principal forgiveness, principal deferment, and maturity extension. Other concessions may include additional compensation received which might be in the form of cash or other assets.

The following table presents the outstanding recorded investment for TDRs that occurred during the previous twelve months and for which there was a subsequent payment default during the period. Payment default is defined as a payment that was thirty days or more past due.

Defaulted troubled debt restructurings:	Three Months Ended September 30,		Nine Months Ended September 30,	
	2021	2020	2021	2020
Real estate mortgage	\$ –	\$ 415	\$ –	\$ 415
Production and intermediate-term	106	102	106	704
Total	\$ 106	\$ 517	\$ 106	\$ 1,119

The following table provides information at period end on outstanding loans restructured in troubled debt restructurings. These loans are included as impaired loans in the impaired loan table:

	Total TDRs		Nonaccrual TDRs	
	September 30, 2021	December 31, 2020	September 30, 2021	December 31, 2020
Real estate mortgage	\$ 9,315	\$ 6,260	\$ 4,824	\$ 3,533
Production and intermediate-term	5,300	5,517	4,394	4,358
Processing and marketing	8,462	10,574	—	346
Farm-related business	39	48	—	—
Rural residential real estate	24	27	—	—
Total loans	\$ 23,140	\$ 22,426	\$ 9,218	\$ 8,237
Additional commitments to lend	\$ 2,610	\$ 1,003		

### Note 3 — Investments

#### Equity Investments in Other Farm Credit System Institutions

Equity investments in other Farm Credit System institutions are generally nonmarketable investments consisting of stock and participation certificates, allocated surplus, and reciprocal investments in other institutions regulated by the FCA. These investments are carried at cost and evaluated for impairment based on the ultimate recoverability of the par value rather than by recognizing temporary declines in value.

Associations are required to maintain ownership in AgFirst (AgFirst or the Bank) in the form of Class B or Class C stock as determined by the Bank. The Bank may require additional capital contributions to maintain its capital requirements. The Association owned 6.35 percent of the issued stock of the Bank as of September 30, 2021 net of any reciprocal investment. As of that date, the Bank's assets totaled \$37.9 billion and

shareholders' equity totaled \$2.7 billion. The Bank's earnings were \$357 million for the first nine months of 2021. In addition, the Association held \$958 in investments related to other Farm Credit institutions.

### Note 4 — Debt

#### Notes Payable to AgFirst Farm Credit Bank

The Association's indebtedness to the Bank represents borrowings by the Association to fund its earning assets. This indebtedness is collateralized by a pledge of substantially all of the Association's assets. The contractual terms of the revolving line of credit are contained in the General Financing Agreement (GFA). The GFA also defines Association performance criteria for borrowing from the Bank, which includes borrowing base margin, earnings and capital covenants, among others.

### Note 5 — Members' Equity

#### Accumulated Other Comprehensive Income (AOCI)

	Changes in Accumulated Other Comprehensive Income by Component (a)			
	Three Months Ended September 30,		Nine Months Ended September 30,	
	2021	2020	2021	2020
<b>Employee Benefit Plans:</b>				
Balance at beginning of period	\$ (40)	\$ (35)	\$ (40)	\$ (36)
Other comprehensive income before reclassifications	—	—	—	—
Amounts reclassified from AOCI	1	—	1	1
Net current period other comprehensive income	1	—	1	1
Balance at end of period	\$ (39)	\$ (35)	\$ (39)	\$ (35)

	Reclassifications Out of Accumulated Other Comprehensive Income (b)				
	Three Months Ended September 30,		Nine Months Ended September 30,		Income Statement Line Item
	2021	2020	2021	2020	
<b>Defined Benefit Pension Plans:</b>					
Periodic pension costs	\$ (1)	\$ —	\$ (1)	\$ (1)	See Note 7.
Net amounts reclassified	\$ (1)	\$ —	\$ (1)	\$ (1)	

(a) Amounts in parentheses indicate debits to AOCI.

(b) Amounts in parentheses indicate debits to profit/loss.

## Note 6 — Fair Value Measurement

Fair value is defined as the exchange price that would be received for an asset or paid to transfer a liability in an orderly transaction between market participants in the principal or most advantageous market for the asset or liability.

Accounting guidance establishes a hierarchy for disclosure of fair value measurements to maximize the use of observable inputs, that is, inputs that reflect the assumptions market participants would use in pricing an asset or liability based on market data obtained from sources independent of the reporting entity. The hierarchy is based upon the transparency of inputs to the valuation of an asset or liability as of the measurement date. A financial instrument's categorization within the hierarchy tiers is based upon the lowest level of input that is significant to the fair value measurement.

The classifications within the fair value hierarchy are as follows:

Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 inputs include quoted prices for similar assets and liabilities in active markets; quoted prices in markets that are not active; and inputs that are observable, or can be corroborated, for substantially the full term of the asset or liability.

Level 3 inputs are unobservable and supported by little or no market activity. Valuation is determined using pricing models, discounted cash flow methodologies, or similar techniques, and could include significant management judgment or estimation. Level 3 assets and liabilities also could include instruments whose price has been adjusted based on dealer quoted pricing that is different than the third-party valuation or internal model pricing.

For a complete discussion of the inputs and other assumptions considered in assigning various assets and liabilities to the fair value hierarchy levels, see the latest Annual Report to Shareholders.

There were no Level 3 assets or liabilities measured at fair value on a recurring basis for the periods presented. The Association had no transfers of assets or liabilities into or out of Level 1 or Level 2 during the periods presented.

Fair values are estimated at each period end date for assets and liabilities measured at fair value on a recurring basis. Other Financial Instruments are not measured at fair value in the statement of financial position, but their fair values are estimated as of each period end date. The following tables summarize the carrying amounts of these assets and liabilities at period end, and their related fair values.

	September 30, 2021				
	Total Carrying Amount	Level 1	Level 2	Level 3	Total Fair Value
<b>Recurring Measurements</b>					
<b>Assets:</b>					
Assets held in trust funds	\$ 1,589	\$ 1,589	\$ —	\$ —	\$ 1,589
Recurring Assets	\$ 1,589	\$ 1,589	\$ —	\$ —	\$ 1,589
<b>Liabilities:</b>					
Recurring Liabilities	\$ —	\$ —	\$ —	\$ —	\$ —
<b>Nonrecurring Measurements</b>					
<b>Assets:</b>					
Impaired loans	\$ 5,935	\$ —	\$ —	\$ 5,935	\$ 5,935
Other property owned	605	—	—	621	621
Nonrecurring Assets	\$ 6,540	\$ —	\$ —	\$ 6,556	\$ 6,556
<b>Other Financial Instruments</b>					
<b>Assets:</b>					
Cash	\$ 65	\$ 65	\$ —	\$ —	\$ 65
Loans	1,967,767	—	—	1,952,530	1,952,530
Other Financial Assets	\$ 1,967,832	\$ 65	\$ —	\$ 1,952,530	\$ 1,952,595
<b>Liabilities:</b>					
Notes payable to AgFirst Farm Credit Bank	\$ 1,536,296	\$ —	\$ —	\$ 1,531,398	\$ 1,531,398
Other Financial Liabilities	\$ 1,536,296	\$ —	\$ —	\$ 1,531,398	\$ 1,531,398

December 31, 2020

	Total Carrying Amount	Level 1	Level 2	Level 3	Total Fair Value
<b>Recurring Measurements</b>					
<b>Assets:</b>					
Assets held in trust funds	\$ 1,766	\$ 1,766	\$ –	\$ –	\$ 1,766
Recurring Assets	\$ 1,766	\$ 1,766	\$ –	\$ –	\$ 1,766
<b>Liabilities:</b>					
Recurring Liabilities	\$ –	\$ –	\$ –	\$ –	\$ –
<b>Nonrecurring Measurements</b>					
<b>Assets:</b>					
Impaired loans	\$ 4,539	\$ –	\$ –	\$ 4,539	\$ 4,539
Other property owned	826	–	–	911	911
Nonrecurring Assets	\$ 5,365	\$ –	\$ –	\$ 5,450	\$ 5,450
<b>Other Financial Instruments</b>					
<b>Assets:</b>					
Cash	\$ 131	\$ 131	\$ –	\$ –	\$ 131
Loans	1,851,655	–	–	1,873,227	1,873,227
Other Financial Assets	\$ 1,851,786	\$ 131	\$ –	\$ 1,873,227	\$ 1,873,358
<b>Liabilities:</b>					
Notes payable to AgFirst Farm Credit Bank	\$ 1,418,871	\$ –	\$ –	\$ 1,439,084	\$ 1,439,084
Other Financial Liabilities	\$ 1,418,871	\$ –	\$ –	\$ 1,439,084	\$ 1,439,084

### Uncertainty in Measurements of Fair Value

Discounted cash flow or similar modeling techniques are generally used to determine the recurring fair value measurements for Level 3 assets and liabilities. Use of these techniques requires determination of relevant inputs and assumptions, some of which represent significant unobservable inputs as indicated in the tables that follow. Accordingly, changes in these unobservable inputs may have a significant impact on fair value.

Certain of these unobservable inputs will (in isolation) have a directionally consistent impact on the fair value of the instrument for a given change in that input. Alternatively, the fair value of the instrument may move in an opposite direction for a given change in another input. Where multiple inputs are used within the valuation technique of an asset or liability, a change in one input in a certain direction may be offset by an opposite change in another input having a potentially muted impact to the overall fair value of that particular instrument. Additionally, a change in one unobservable input may result in a change to another unobservable input (that is, changes in

certain inputs are interrelated with one another), which may counteract or magnify the fair value impact.

### Inputs to Valuation Techniques

Management determines the Association's valuation policies and procedures. The Bank performs the majority of the Association's valuations, and its valuation processes are calibrated annually by an independent consultant. The fair value measurements are analyzed on a quarterly basis. For other valuations, documentation is obtained for third party information, such as pricing, and periodically evaluated alongside internal information and pricing that is available.

Quoted market prices are generally not available for the instruments presented below. Accordingly fair values are based on judgments regarding anticipated cash flows, future expected loss experience, current economic conditions, risk characteristics of various financial instruments, and other factors. These estimates involve uncertainties and matters of judgment, and therefore cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

### Quantitative Information about Recurring and Nonrecurring Level 3 Fair Value Measurements

	Fair Value	Valuation Technique(s)	Unobservable Input	Range
Impaired loans and other property owned	\$ 6,556	Appraisal	Income and expense	*
			Comparable sales	*
			Replacement cost	*
			Comparability adjustments	*

\* Ranges for this type of input are not useful because each collateral property is unique.

### Information about Other Financial Instrument Fair Value Measurements

	Valuation Technique(s)	Input
Cash	Carrying value	Par/principal and appropriate interest yield
Loans	Discounted cash flow	Prepayment forecasts
		Probability of default
		Loss severity
Notes payable to AgFirst Farm Credit Bank	Discounted cash flow	Prepayment forecasts Probability of default Loss severity

---

## Note 7 — Employee Benefit Plans

The following is a table of retirement and other postretirement benefit expenses for the Association:

	Three Months Ended September 30,		Nine Months Ended September 30,	
	2021	2020	2021	2020
Pension	\$ 1,016	\$ 662	\$ 3,049	\$ 1,985
401(k)	275	259	1,003	923
Other postretirement benefits	128	123	367	373
Total	<u>\$ 1,419</u>	<u>\$ 1,044</u>	<u>\$ 4,419</u>	<u>\$ 3,281</u>

Expenses in the above table are computed using allocated estimates of funding for multi-employer plans in which the Association participates. These amounts may change when a total funding amount and allocation is determined by the respective Plan's Sponsor Committee. Also, market conditions could impact discount rates and return on plan assets which could change contributions necessary before the next plan measurement date of December 31, 2021.

Further details regarding employee benefit plans are contained in the 2020 Annual Report to Shareholders.

## Note 8 — Commitments and Contingent Liabilities

From time to time, legal actions are pending against the Association in which claims for money damages are asserted. On at least a quarterly basis, the Association assesses its liabilities and contingencies in connection with outstanding legal proceedings utilizing the latest information available. While the outcome of legal proceedings is inherently uncertain, on the basis of information presently available, management, after consultation with legal counsel, is of the opinion that the ultimate liability, if any, from these actions, would not be material in relation to the financial position of the Association. Because it is remote that the Association will incur a loss or the loss is not estimable, no liability has been recorded for any claims that may be pending.

## Note 9 — Subsequent Events

The Association evaluated subsequent events and determined that, except as described below, there were none requiring disclosure through November 8, 2021, which was the date the financial statements were issued.

On October 18, 2021, AgFirst's Board of Directors indicated an intention to declare, in December 2021, a special patronage distribution. The Association will receive between approximately \$17,908 and \$18,654 which will be recorded as patronage refunds from other Farm Credit institutions.
